Dr. Moses Hoge, member of the Board of Health, had inspected the camp, said he did not consider the camp an ideal one, but that in all great undertakings of the character of the settling basin, conditions must be dealt with. Laborers and teams are necessities, and they must be given accommodations and some risk must be run.

He further said that he believed the contractors were making every effort to safeguard the tity's interests as well as those of their employes, and it was a matter of opinion as to whether this was being done.

"There is no direct way for the refuse to reach the canal," he said, "and in case of a heavy rain the cesspool should be sufficient to keep out the refuse, though I would recommend that the bank be thrown a little higher."

Adopt Very Important Resolution Calling for the Graded System.

THE SESSION ENDS TO-DAY

Big Mass-Meeting To-night, at Which Dr. Pelaubet and Others Will Speak.

In a resolution adopted at a business ession held last night, the Sunday School Editorial Association of the United States and Canada proclaimed its unanimous gaging the attention of this body and of the religious world at large for the past wo or three years.

The resolution, containing various suggestions, calls upon the International Sunday School Convention, which meets in 1905 in Toronto, to prepare and proinvigate a system of uniform, graded les-

settle the point in favor of the graded system.

The third annual meeting of the association will come to a close to-day with a big mass-meeting this evening at the Grace Street Baptist Church. All the Sunday schools of the city have been invited and the attendance will probably be very large. There will be few addresses of ten minutes each. The speakers will be Dr. Peloubet, of Boston; Dr. Elackall, of Philadelphia; Dr. McKamy, of Nashville, and Dr. Van Vess, of Nashville,

of Nashville, and Dr. Van Vess, of Nashville.

YESTERDAY'S BUSINESS.
At 0 o'clock yesterday morning the business sessions of the association were resumed, and the discussion of the programme for the international convention, to be held in Toronto, Canada, in 1905, was continued. Mr. Hartshorn, of Boston, made a number of valuable suggestions, Great interest was manifested in the discussion of the topics, "Advanced Lessons." The charge that the Sunday school leaders of the day are not abreast of the secular educators in the matter and manner of the instruction of the young was sharply and clearly disployed, It was pointed out that the grade's course of instruction now provided for the Sunday achool is founded upon the most advanced pedagogical principles. A paper by Mr. Amos R. Wells, of the Christian Endeavor World, of Boston, was much enjoyed, Mr. Wells made a strong pleathat the Toronto convention he petitioned to arrange for a thoroughly digested advanced course of lessons for the senior department of the Sunday schools.

After lunch the association surfed on a trolley rice around the city. Seven Pines was visited and the battlefield was fully explored and objects of interest pointed out by Dr. J. P. Smith. The visitors also went to Hollywood, St. John's Church and a number of theorems.

The programme for to-day will be as follows:

First Celebration.

The Civic Improvement League of Richmond has inaugurated a programme for two civic days—to-morrow and Saturday. The matter is one of very great interest to all citzens, men and women, and the attendance upon the various functions is expected to be large.

The opening of the first playground of the association will take place to-morrow afternoon at 4:30 o'clock. The play ground is at Nineteenth and Main Streets. The children's rally Saturday morning will be interesting to every one, both old and young. It is especially desired to have all the children there that have accepted flower seeds from The Times-Dispatch. The teachers and ministers will hold a big conference at Cen-

isters will hold a big conference at Central School. Twelfth Street, between Clay and Marshall, at 12 o'clock Saturday.

The American League for Civic Improvement, with which the Civic Improvement League of Richmond is affiliated, seeks to correlate and direct all the forces working for a clean and beautiful America. Some of these are humble, and concern the care of the small plot, the small street, the narrow path, even the back yard. Some are broader, and aim at the regeneration of whole communities, the provision of breathing places for the thronged cities, the preservation of historic spots and places of great scenic beauty, the removal of the unsightly and the unsanitary.
